

Chapter 8 (Unit 8) Test

Date: _____

Self-Reflection for Studying for Test

Check off your answer to each question:

	Yes	Somewhat	No
Did you complete all HW?			
Did you correct any HW errors and complete any missing problems?			
Did you attend study groups every week?			
Did you ask questions in your study group on topics?			
Did you correct any Quiz errors?			

Rate your preparation for each of these topics on a scale of 0 to 5, where 0 is not at all prepared and 5 is well-prepared.

If you are not well-prepared for a topic, identify what can help you prepare for the Test (i.e., your notes, homework, mathkanection, Khan Academy, or other resources)

Topic	0	1	2	3	4	5	What to do to be better prepared
<p><i>Apply L'Hôpital's Rule, including its use in determining limits of indeterminate forms and convergence of improper integrals</i></p> <p>I can determine limits of functions that result in indeterminate forms. I can determine when apply l'Hôpital's rule in evaluating a converging an improper integral.</p>							
<p><i>Apply the technique of improper integrals as limits of definite integrals</i></p> <p>I can identify an improper integral as an integral that has one or both limits infinite or has an integrand that is unbounded in the interval of integration. I can, using limits, evaluate an improper integral or determine that the integral diverges.</p>
